POLICY

Volunteer Firefighters

The board of fire commissioners recognizes the valuable contribution made to the total district program through the volunteer firefighter program. The board and chief are committed towards developing a unit (s) that develops pride in their personal contribution as a volunteer as well as recognition for their contribution to the community. The board is also committed to implementing a public information program that reflects the quality of service that volunteers render.

The board encourages volunteers to provide input to the chief and commissioners regarding the needs of the department with a tram concept as an ultimate goal. Volunteers are encouraged to engage in training programs to attain additional firefighter skills as well as to gain in personal growth.

The chief shall be responsible for developing and implementing procedures for the eligibility standards, screening, selection, training and assignment of volunteer firefighters.
